BioWatch - Challenges & Opportunities for Applied Research by Rodrigo (Roddy) Moscoso Wed, August 27, 2014 In April 2014, the Department of Homeland Security (DHS) canceled its procurement of the new "BioWatch Gen-3" (next generation) biosurveillance program originally approved for development by the DHS in 2009.

### **BioWatch - Challenges & Opportunities for Applied Research ...**

Gabriel explained that BioWatch had formed several workgroups to share lessons learned and best practices and to exchange ideas on how to improve the program. For example, one working group, the Public Health Engagement Network, was created to bring together public health stakeholders and others interested in public health to talk on a quarterly basis.

### **4 BioWatch Collaborative Planning | Enhancing BioWatch ...**

The BioWatch Program was deployed rapidly, with little publicity, but lessons learned during this process may be applicable to other detection systems that the federal government develops.

Congress may also wish to consider how the performance of this system is measured and determine whether the funding level that the BioWatch Program receives ...
