

Business Case Elements

Business Case Elements

A business case captures the reasoning for initiating a project or task. It is often presented in a well-structured written document, but may also come in the form of a short verbal agreement or presentation. The logic of the business case is that, whenever resources such as money or effort are consumed, they should be in support of a specific business need.

Business case - Wikipedia

Project success is no longer determined by meeting cost, time, and scope constraints. Today's projects must also deliver business value. This paper examines how project managers can develop effective...
