4. Running to slim thighs and reshape legs. Endurance running with little or no incline is especially effective for those who find that when they exercise their thighs bulk up very easily. If you find it too difficult to run or are unable to run, try the elliptical trainer with little or no resistance. Posture on the elliptical trainer is critical.

How to Slim Down Thighs | Get Skinny Thighs & Lose Weight

Slimming down muscular thighs presents an interesting challenge because you must lose muscle from the legs to achieve your goal. To do this, you need to use the right exercise and diet program. For example, some resistance training exercises cause an anabolic, or muscle-building effect, which you want to avoid.
