

Disease And Diagnosis Value Dependent Realism Philosophy And Medicine

Disease And Diagnosis Value Dependent

Value-dependent realism bridges the fact-value gap in its recognition that values are necessary for the determination of what the facts are. In a framework adequate to explain the concept of disease, classification of disease, and diagnosis of diseases, values are as necessary as facts.

Disease and Diagnosis: Value-Dependent Realism

Value-Dependent Realism. The test results provided by our laboratories were accurate and of great practical importance for patient care. However, most of the physicians who relied on our test results to diagnose and treat their patients either did not have the time or interest to consider the philosophical issues inherent in diagnosis, or, like me,...
