The zebrafish (Danio rerio) is a freshwater fish belonging to the minnow family of the order Cypriniformes. Native to South Asia, it is a popular aquarium fish, frequently sold under the trade name zebra danio (and thus often called a "tropical fish" although both tropical and subtropical).The zebrafish is also an important and widely used vertebrate model organism in scientific research, for ...

### **Zebrafish - Wikipedia**

Coldwater fish, in the context of aquariums, refers to fish species that prefer colder water temperatures than average tropical fish, typically below 20 °C (68 °F).Some examples are koi and goldfish.These species tend to grow more slowly and live longer than fish that live in warmer waters, and are generally felt to be easier to keep.

Travelers who go to tropical and subtropical regions are at risk of getting dengue. These areas include parts of the Caribbean, Central and South America, Western Pacific Islands, Australia, Southeast Asia, and Africa. The mosquito that carries the dengue virus can bite during the day and night, both indoors and outdoors and often lives around buildings in urban areas.
