Implementing Evidence-based Practice in Real World ...

beyond the barriers to evidence-based practice (EBP) toward implementing strategies to successfully implement and sustain EBP in organizations (Melnyk, 2007). Through this work, the concept of organizational context has emerged as critical to success. Evidence-based practice context has been defined

Implementing and Sustaining EBP in Real World Healthcare ...

nursing practice (Gennaro, Hodnett, & Kearney, 2001). The literature also shows that implementation of EBP is hard work and requires more than desire and excitement. Successful implementation of EBP requires commitment by practitioners and support from administrators and nurse educators. Evidence-based practice has been described as “the in-

Overcoming Barriers to Implementing Evidence-Based Practice

Implementation is a major step in the evidence-based practice (EBP) process that’s often underappreciated and under-resourced, resulting in delays in using evidence in clinical practice settings. Implementation models for promoting uptake of EBP through strategic efforts and use of a toolbox of strategies can promote successful practice changes.

Implementation: The linchpin of evidence-based practice ...

The practice of evidence-based public health (EBPH) is an integration of science-based interventions with community preferences for improving population health (1). The concept of EBPH evolved at the same time as discourse on evidence-based practice in the disciplines of medicine, nursing, psychology, and social work.
