Poe's law is an adage of Internet culture stating that, without a clear indicator of the author's intent, it is impossible to create a parody of extreme views so obviously exaggerated that it cannot be mistaken by some readers or viewers as a sincere expression of the parodied views.[1][2][3]

It's all just a social construct, man - freethoughtblogs.com

In the ad it said that a true artist should not have to work for their education as that would distract from the art. Also that it is the community's responsibility to contribute to a local artist. It got like \$3,000 if I recall. The guy had a full ride already. Just didn't want to work for housing or food.

The secret life of a social worker: you just have to get ...

So one could just as easily argue that irreligion is a "social construct" (or deconstruction) for particularly powerful countries. And it's easy to come up with theories about this: powerful empires want single-minded obedience to the state and political rulers, not to the gods or religious leaders.
