### **Mathematics Study Material**

The Secondary School Mathematics Curriculum Improvement Study (SSMCIS) was the name of an American mathematics education program that stood for both the name of a curriculum and the name of the project that was responsible for developing curriculum materials. It is considered part of the second round of initiatives in the "New Math" movement of the 1960s.

In mathematics, a knot is an embedding of a circle  $S^1$  in 3-dimensional Euclidean space,  $R^3$  (also known as  $E^3$ ), considered up to continuous deformations ( $\cong$ ). A crucial difference between the standard mathematical and conventional notions of a knot is that mathematical knots are closed—there are no ends to tie or untie on a mathematical knot. Physical properties such as friction and thickness ...
