Head in one direction you could ride all the way to Melbourne, in the opposite direction all the way to Brisbane. But for those who would prefer to stay a little closer to home there is access to "Narrabundah Hill", a completely fenced-in riding area (and only a very short walk from our front gate).

The intensity of echoes tends to decrease with increasing distance from the radar, because: The radar beam widens with distance, therefore the volume of the beam that is filled with rain is decreased - this reduces the echo intensity. The radar beam becomes attenuated, that is it loses power slightly when passing through very heavy rain, thus reducing the echo intensity further out from the radar.
