

## *Openstack Cloud Application Development*

### **Openstack Cloud Application Development**

Since creating OpenStack ® with NASA in 2010, we've continued to innovate by pioneering the OpenStack private cloud-as-a-service delivery model and providing the industry's first 99.99% API uptime guarantee. We manage the world's largest OpenStack public cloud and have logged more than 1 billion server hours operating OpenStack clouds for many of the world's largest companies.

Fleio 2019.04 is now available. Fleio - the OpenStack billing system and self-service portal software - enables service providers to sell public cloud services.

### **Fleio: OpenStack Billing System and Control Panel**

I think there's an intrinsic attitude among tech people to make things better, to see actual results. Particularly with automation, when you show a colleague how they can stand up a test environment in just a few steps, you don't need metrics—you can see on their face how happy they are with what the technology can do.
