Games that help teach math concepts without language, numbers, or symbols.

ST Math
ST Math starts by teaching the foundational concepts visually, then connects the ideas to the symbols and language. With visual learning, students are better equipped to tackle unfamiliar math problems, recognize patterns, and build conceptual understanding.

Visual Math Program | Math Learning Games | ST Math
This app allows schools to access their ST Math student accounts using Android tablets. An activation code is required. ST Math is a visual instructional program that builds a deep conceptual understanding of math through rigorous learning and creative problem solving to deeply engage, motivate, and challenge Pre-K-8 students toward higher achievement.

ST (JiJi) Math: School Version - Apps on Google Play
JiJi is the beloved penguin in the ST Math software games. Students help JiJi overcome obstacles by solving math puzzles – and they associate JiJi with the thrill of challenge and success. JiJi crosses the screen every time a child successfully completes a puzzle, leading the student to the next challenge.

K-6 Elementary Math Program | Visual Math Learning | ST Math
ST Math®: Fluency is designed to help students build fluency with addition and multiplication math facts, building speed and accuracy with understanding. The use of animated virtual manipulatives enables an intuitive process of learning that makes basic math fact recall effortless.
