Stained Glass Window Coloring Pages - Coloring Home

The Color of Glass. It is "stained" through the manufacturing process, not by coloring it afterwards. Clear glass is made from silica sand and other ingredients to give it the proper clarity, melting temperature and strength. Glass is colored by adding metal oxides or metal powders to molten glass.

How to Change Stained Glass Color. Using glass paint will not change the color of the piece, but rather relies on color mixing to produce the desired effect. For instance, if the piece is red and you want it to be purple, you would use blue paint. For this reason, this technique is limited—it won't change red into green, for instance, but a number of color changes are possible.

Window Panels. Stained glass window panels are a popular way to add the color and charm of stained glass without the headache of installation. Many architectural salvage shops sell vintage windows that can be used as panels. The panels are typically suspended from a window frame by a thin chain, which allows them to be easily removed for cleaning,...
