Why Have The Birds Stopped

Because birds sing to establish and defend a territory and to attract a mate, they sing mainly during spring and early summer. Some birds only raise one brood and even those that raise several broods in a year have little need to continue singing much after June.

Birds and Creation Myths from several regions associate birds with the creation of the world. One of several creation stories in ancient Egypt said that when land rose out of the primeval waters of chaos, the first deity to appear was a bird perching on that land. The Egyptians called the god the Benu bird and portrayed it as a long-legged, wading heron in the sun temple at Heliopolis.
